WARNING

- Yachts are expected to keep out of the deep water shipping channel from Guard to seaward. Navigation is prohibited within the deep water channel at any time while racing – see Sailing Instructions for applicable restrictions.
- None of the Haven courses requires a yacht to cross the channel at any point to seaward of Guard.
- Endangering shipping by entering the channel could compromise the continued use of these courses.

SHOALS may be encountered in the racing area, and it should not be assumed that the rhumb line between marks has adequate depth for all boats at all states of the tide.
